Vivono in una città dai colori sbiaditi, a causa dell'uomo che inquina e costruisce delle case molto grigie e spente.

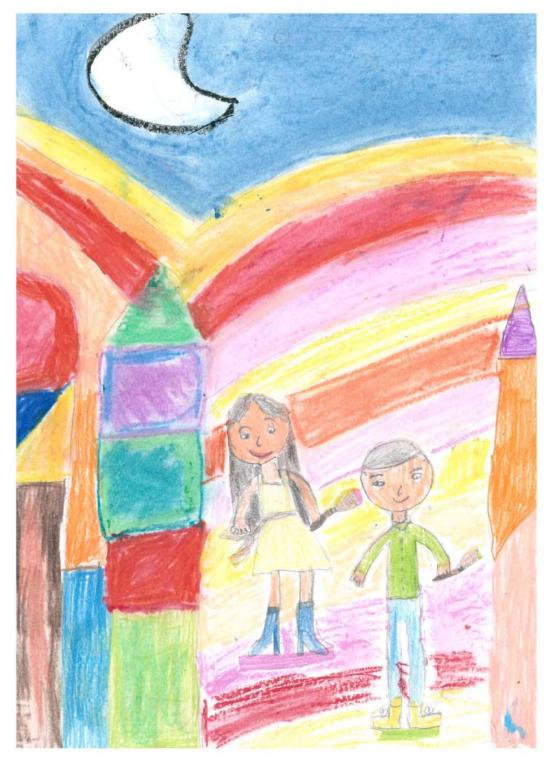

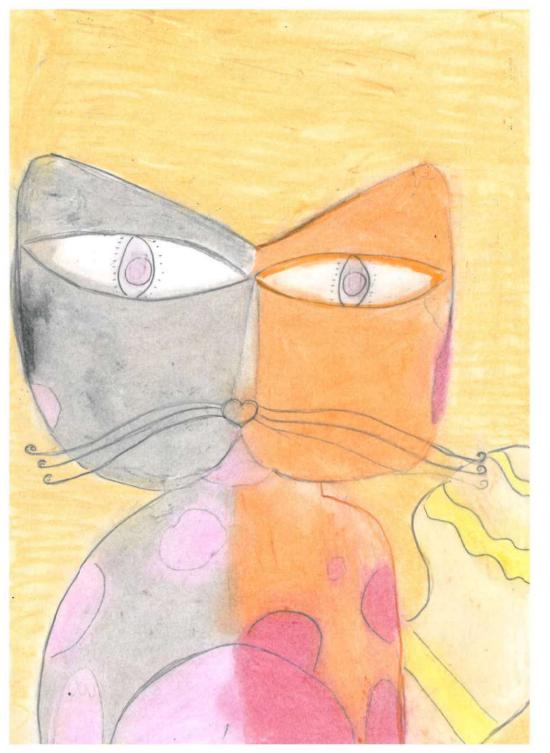

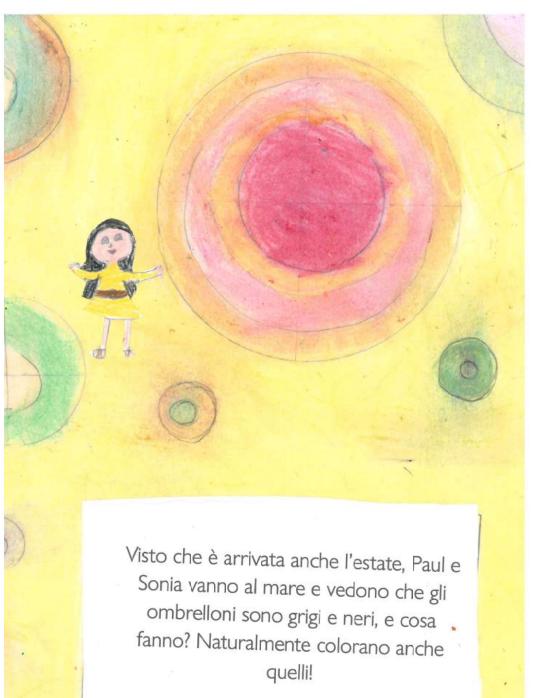

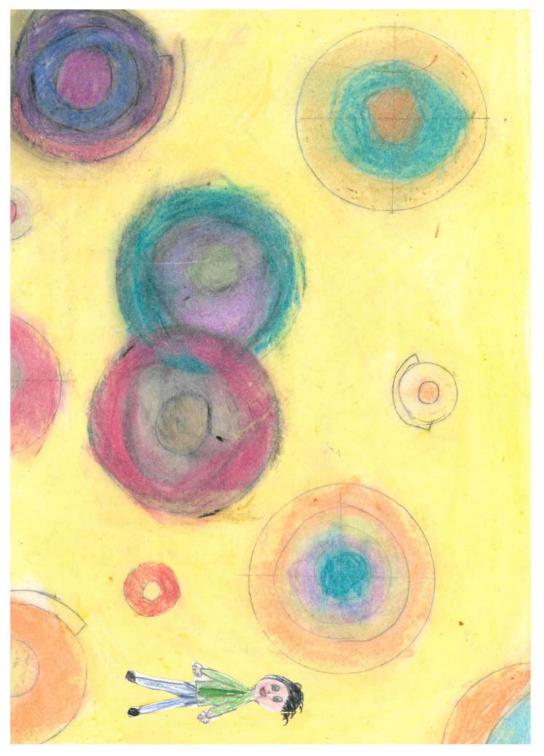

I due amici lavorano duramente, anche di notte, finché la città e la campagna non tornano ad essere completamente ricche di colori splendenti!

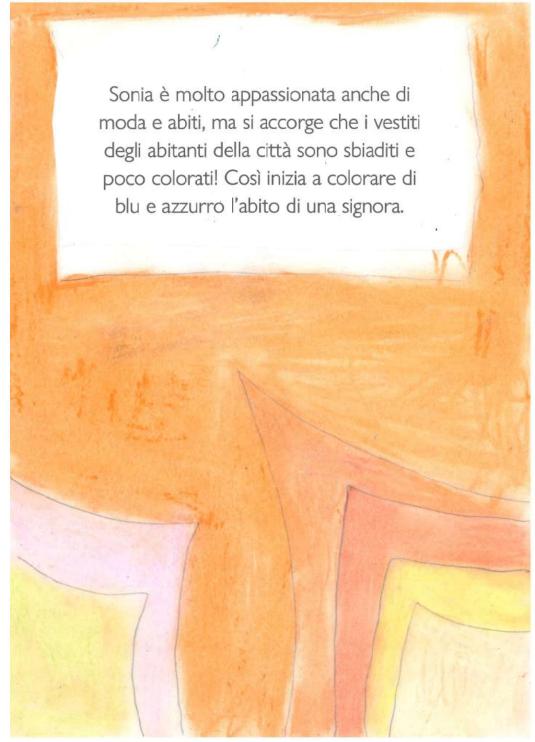

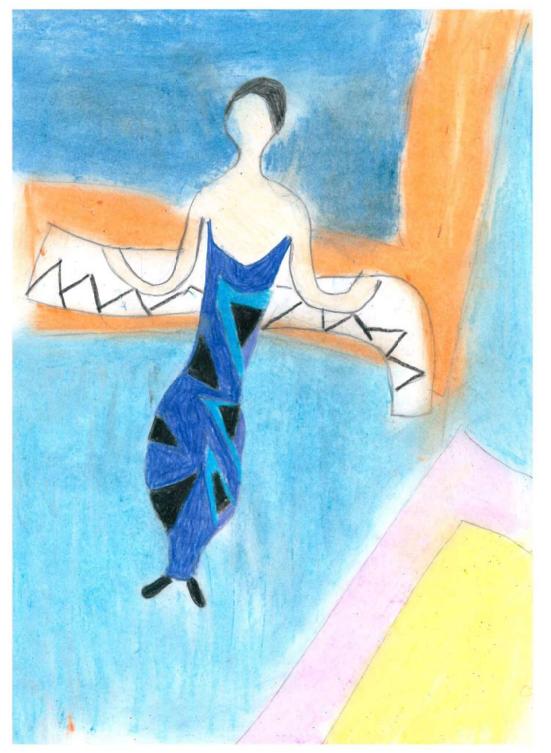

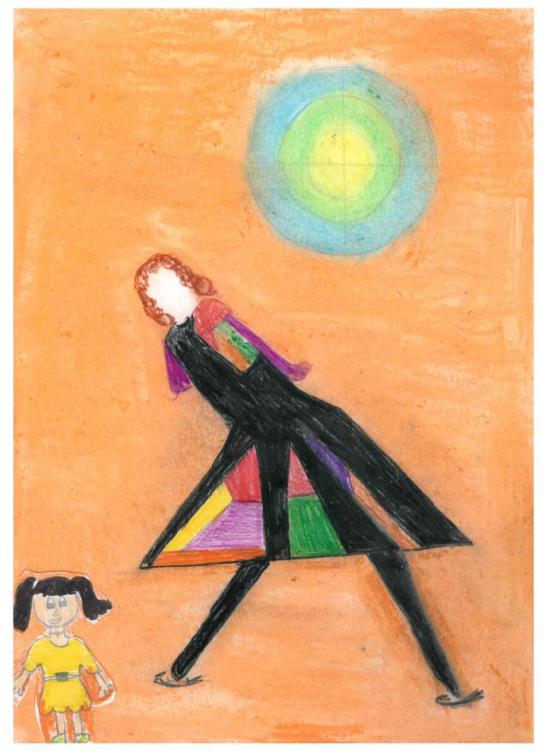

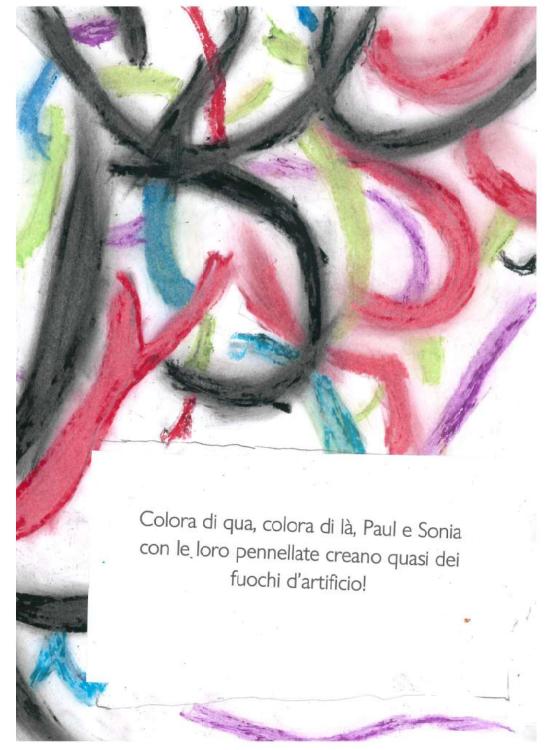

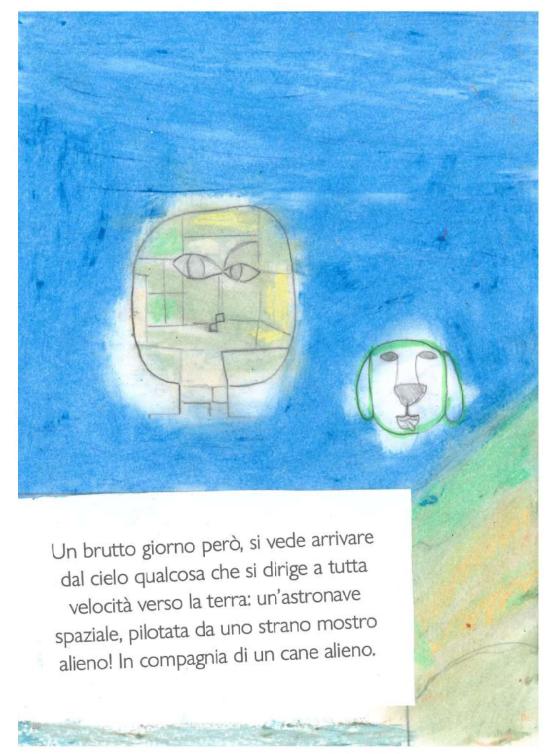

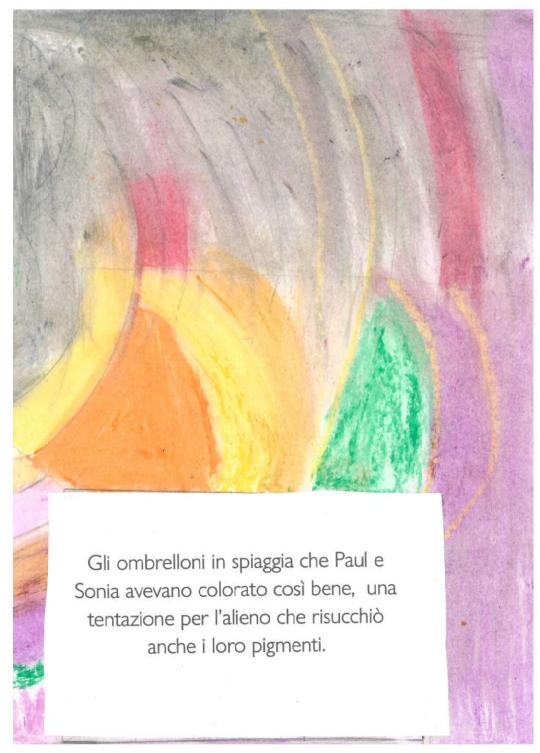

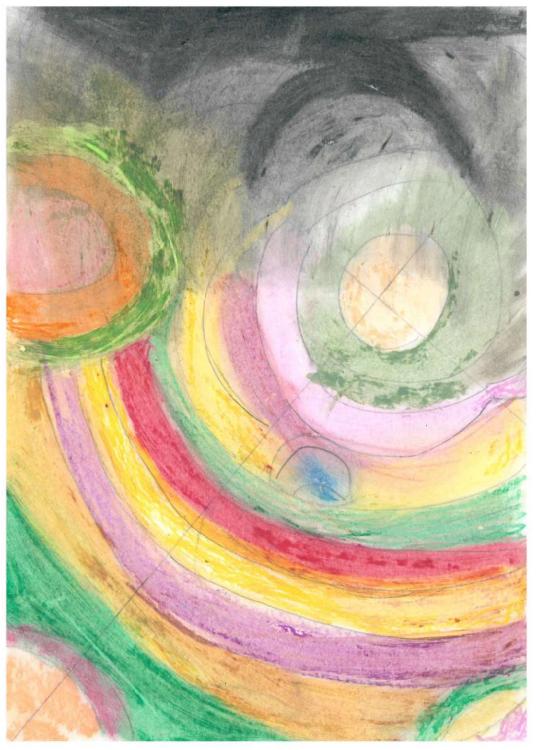

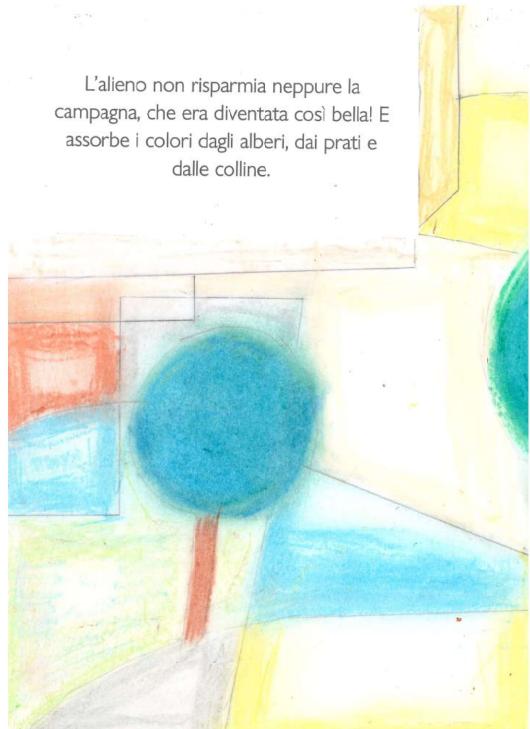

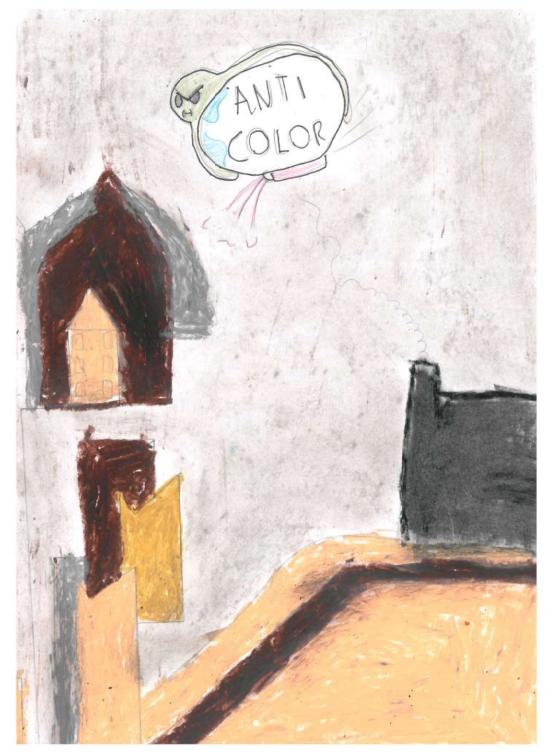

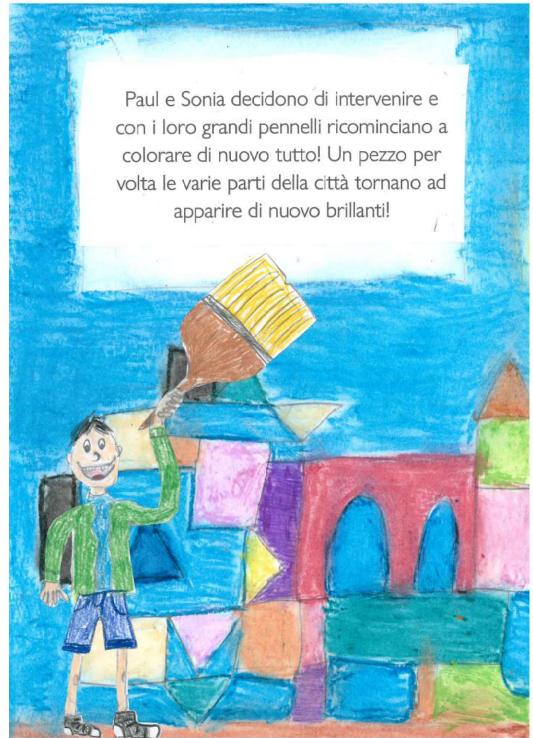

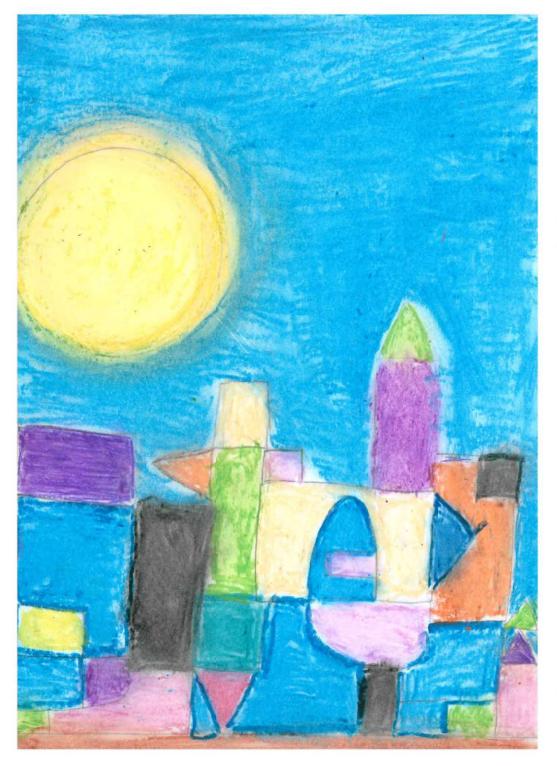

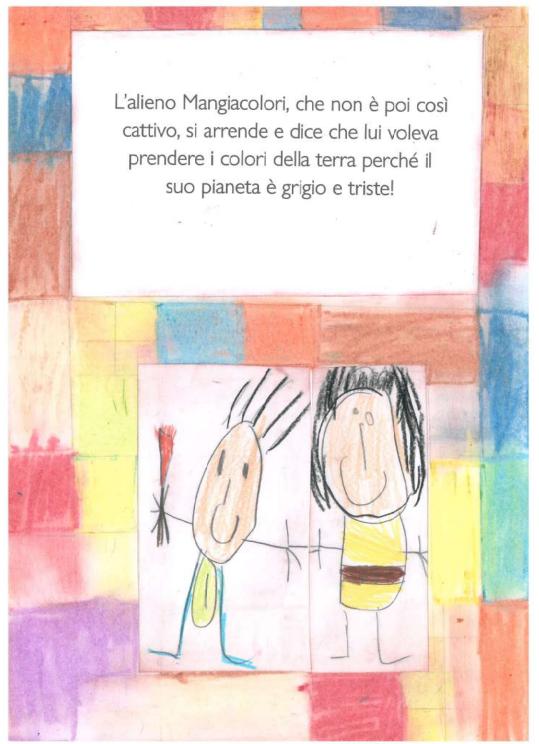

La città che Paul e Sonia avevano colorato utilizzando tutti i colori e che era tanto bella, diventa, neppure sbiadita come all'inizio, ma proprio in bianco e nero, come un film degli anni '20!
